More Sign In Favor Of Continuing Rent Control

An additional number of signatures have been secured by Patrick Garvey, 5 Chapman ave., whose petition for a special town meeting on rent control was filed last week resulting in the board of selectmen naming Monday, Aug. 24 for that purpose.

It is expected that with more than 200 names having been secured in favor of having the special meeting on this subject a quorum of 350 people will be present at the Memorial auditorium so that business can be transacted.

At the special town meeting it will be necessary to first decide that a substantial shortage of rental housing accommodations exist before action can be taken on the rent control question. The town meeting, itself, will have to decide whether or not the shortage exists before moving on to the main question.

If rent control is voted a board of five unpaid members will have to be set up to administer the law. It is also expected that an appropriation will have to be made for assistants and clerical aid as provided by the state act under which the question of rent control is brought up at this time.

blush pink lace skirted in nylon
net and carrying blue bachelor
buttons and baby's breath. Fran-
ces Cann of Leominster, cousin of

Why People Buy Stocks

More and more people, and particularly people of moderate means, are buying stocks.

Various reasons lie behind this purchasing — the hope of a good return on the investment probably being paramount. But there is another reason that is extremely important. As a people, we buy enormous quantities of trade-marked, nationally-sold wares of all kinds. Everything from such frequent purchases as a breakfast food to such occasional ones as an automobile is produced by companies whose shares are listed on the security exchanges. People like the products, and have faith in the soundness and integrity and future prospects of the concerns which make them. So what could be more natural than for them to put a part of their savings in these companies' shares?

When that happens, the share owner has a direct personal interest in everything that the company concerned may do. He shares in the risks and the rewards alike. He can cast his vote to keep or change the management at annual elections. And, most important, he has a real stake in the American free enterprise system — the capitalist system, which has done more for more people than any other economic system ever tried since history began.

Finally, he can buy more stock or sell what he has any business day in the year, at an openly quoted price which isn't "fixed" by anyone — a price which reflects the honest judgement of the prospective buyer and dealer.

Competition, obviously, has been of yeoman service to the consumer by holding prices down and forcing quality up. It is the spur that makes for progress and achievement. — Foster's (Dover, N.H.) Democrat.

There is a middle road of efficient defense without extravagance which must be found and followed until peace is more than a word in the world.—Athol News.

The rifts that seem to be appearing in the Iron Curtain are causing a degree of optimism in the western world greater than we have known for a long time.

Down the Years with The Townsman

50 Years Ago — August 1903

Many Andover people visited the scene of the explosion in Lowell on Sunday.

F. E. Gleason is advertising a large consignment of nut coal at \$6.50 a ton.

The annual picnic of the Smith & Dove employees will be held at Revere beach Aug. 5. The trip will be made by trolley. Round trip fare 50 cents.

Haverhill-Andover trolley line puts new schedule into effect. Cars leave hourly in early morning, then half hourly until late at night.

Cars on the Salem line started running hourly yesterday instead of every half hour as in the past.

Employees of the Tye Rubber Co., enjoy their days' outing at Revere beach. The start was made from the square early in the morning in seven special cars and on return left the beach at 7 p.m. All had an enjoyable day and time passed quickly on the way home by the young ladies and gentlemen singing all the popular songs.

We congratulate the Town of North Reading on its recent observance of its 50th anniversary. The affair was in the form of a picnic held in a grove where several hundred heard some excellent speeches.

The Ballardvale baseball team won its 11th victory of the season by defeating the Lawrence YMCA 20 to 2 on The Plains last Sunday afternoon. The Vale team made 24 hits for 34 bases, Lawrence three hits for four bases.

25 Years Ago — August 1928

John A. Haggerty of Clark rd., oldest member of the fire department, dropped dead while engaged in his duties at a slight fire in the old bowling alleys in Ballardvale shortly after midnight. Answering an alarm he drove the apparatus to the fire in his stocking feet and assisted in laying the hose. While standing beside the pumper a few moments later he suddenly collapsed and was pronounced dead upon the arrival of medical aid. Born in Andover 60 years ago he was employed by the highway department and the fire department for nearly 40 years.

Small youngsters show skill and daring at Pomp's pond where many of them have passed the life saving tests.

Over 50 girls have registered to enter their dolls in the exhibit on the Central playground tonight.

Shawsheen Village all but obliterated — theoretically, of course — in last Monday's intensive black-out.

Miss Mary M. McCarthy of Concord, N.H., who has taught 12 years in Exeter, N.H., appointed teacher in the Bradlee school at a starting salary of \$1400.

Poor Man's Guide To Europe, Dodge.

"A masterpiece of miserly know-how that's fun to read before you go, while you're going, when you get there, after you come back, and even if you don't go at all."

One Million Islands For Sale, Froman.

Where to look for an island to buy among the more than 1,000,000 along coasts and in lakes and rivers of the United States and Canada.

Embroidery Design And Stitches, Mann.

A book intended to encourage the student to produce spontaneous design and modern interpretation of the old stitches.

The River And The Gauntlet, Marshall.

A new method of battle reporting has been used for this story of the defeat of the 8th army by the Chinese Communist forces in November, 1950. It is based upon careful interview with participants in battle from infantry squad members to generals. Author served as chief historian for the European theater of operations.

World Of Robert Flaherty, Griffith.

Seeking wealth in the frozen Far North, Robert Flaherty came to know the Eskimos and developed a great fondness for them. Encouraged by the interest in his diaries and pictures of life there, he made a film "Nanook of the North", definitely an artist's production. Also did "Elephant Boy", etc.

The Low Sodium Cook Book, Payne.

For those afflicted with certain heart ailments or requiring low sodium diets or low cholesterol diets, this book gives valuable advice. It shows in household measurements the sodium content of 900 items.

The Rommel Papers, Rommel.

Erwin Rommel left behind him in hiding places the papers that told the story of his dramatic career and remarkable campaigns. At end of each day he dictated a running comment of the day's events, summarizing the course and the lessons learned from it. From these and from the out-spoken letters which he wrote to his wife this book has been compiled. His own son, Manfred tells of Rommel's last days.

How To Believe, Sockman.

Dr. Sockman, pastor of Christ Church in New York, has received over two million letters in the past 25 years, all with questions for his consideration. In this book he answers many of them in the light of the Apostle's creed.

LITTLE LEAGUE

Yanks Take Pennant

The Andover Yankees by their 11-2 victory over the North Andover Indians here last Thursday night won the second-half pennant in the Southern division of the Suburban Little League.

Johnny Giovinco on the mound for the winners allowed only three hits, struck out 11 and passed three. At the bat he hit two triples and a single on three official trips to the plate.

Barton with two doubles and Murphy with a homer also contributed to Andover's attack.

Cards Win 5 - 3

Scoring five runs in the second inning the Andover Cardinals took a 5 - 3 decision from the Methuen Red Sox in the neighboring town July 29.

Three Cardinal hits mingled with two enemy errors and a hit batsman accounted for the Andover runs. In this rally Richardson singled for two runs and Lucey singled for another run. Dubocq allowed but two hits while passing five and retiring eight on strikes.

The answers to
everyday insurance
problems*

QUESTION: I heard re-
cently that when a thief
gets money out of a safe
by opening the combina-
tion it isn't "burglary,"
according to insurance
companies. Is this true?

ANSWER: As a general
rule that is correct. There
are exceptions but usually
"burglary" as defined in
an insurance policy, must
be accompanied by "forc-
ible entry" or attempts at
same.

Recordings Widen Library Service

Important as it is, the printed word is proving to be only one medium of information offered by public libraries throughout the country. The book form itself is supplemented by the vast number of pamphlets, magazines, and leaflets which offer the most recent information in the most rapidly printed form. In addition, many libraries now offer musical and non-musical recordings, framed prints of art subjects and educational film services to the public.

The Memorial Hall library has been building up its service in these areas and at the end of the past year found the figures gratifying indeed.

For instance, there were 5,073 adult and 1,550 children's recordings loaned last year. Mounted prints from the picture file are loaned like books; there were 544 taken by library users during the same period. The loaning of framed prints, begun in a modest way this spring through the generosity of the Andover Evening Study Group gift, has been so successful that there has been almost capacity borrowing of the entire collection for the established two-month periods.

A newly purchased film strip projector will add to the library's audio-visual materials during the coming year, while continued use of the 16 mm film projector is assured.

Andover groups and organizations have been active in the use of films in their meetings. Many of them have asked the library to book the films for them.

It is hoped that those responsible for the preparation of programs for clubs and organizations will keep in mind these aids to good meetings.

For further information, call the library, And. 314.

MAY TRANSFER SOME WEST SCHOOL PUPILS

In planning for the reopening of schools next September Supt. Edward I. Erickson is of the opinion that the school committee at its next meeting will take some definite action on transferring either the sixth grade or the kindergarten of the West school to the Central school.

Some change is necessary in order to relieve the crowded conditions in the new West school where present enrollment estimates seem to warrant transfer of the kindergarten.

Do You Know Massachusetts?

DO YOU KNOW THAT... In the seven years, 1946-1952, Massachusetts built approximately 173,000 new dwelling units, an average of 36.9 dwellings per 1,000 residents. Towns of population between 2,500 and 5,000 had the highest rate of growth, an average of 83 new homes per 1,000 year-around residents....A recapitulation of shoe production by the U. S. Department of Commerce for 1952 shows Massachusetts at the top with output of 87,125,000 pairs. New York, the nearest competitor, had 82,908,000. In factory value of shoe shipments Massachusetts had \$131,799,000, which was 29% more than New York's....Edgartown, originally known as Great Harbor, was renamed in 1671 by Thomas Mayhew in honor of Edgar, the infant son of the Duke of York to whom Charles II had given control of New York and the islands south of Cape Cod....Massachusetts Department of Labor and Industries reports that manufacturers in the Commonwealth employed 24,000 more production workers during June than a year ago, at average weekly earnings of \$65.86 or \$3.11 per worker more than in June last year....The ten large industrial centers paying the highest average earnings per wage earner in June were: Beverly \$82.78, Lynn \$81.00, Everett \$79.68, Pittsfield \$79.53, West Springfield \$79.10, Quincy \$76.67, Framingham \$76.31, Chicopee \$73.81, Peabody \$72.44 and Fitchburg \$72.43....Marriages in Massachusetts during the first five months this year numbered practically the same as in the same part of 1952.

WANTED — WOMAN TO LIVE in. Care for three children and do general housekeeping in Andover home. Answer in detail giving references. Address X-79, Box 9, Andover, Mass. H-6

Q-I want to change the beneficiary of my NSLI policy. How do I go about it?

A-You must notify the VA District Office that handles your insurance account, preferably on a form that may be obtained at any VA office. If you don't have such a form, any written notice will do, so long as you sign it and include enough information so that VA can identify your account.

Q - To train under the Korean GI Bill, I understand that I need at least 90 days military service, unless I was discharged sooner for a disability. Must all the 90 days have occurred after the Korean fighting began?

A - Not necessarily. You could qualify provided any part of the required 90 days of your military service took place after June 27, 1950, the date of the outbreak of hostilities in Korea.

Q - I intend to go to college under the Korean GI Bill. The way I figure it, I will be entitled to three years of training. Does that mean I can get only three years of college? A - Not necessarily. You would be entitled to three years of actual training time. If your school, for example, is on a nine-month basis, you could train for four school years on your 36 months of entitlement.

Adult Swimmers End Classes Friday

The senior life saving class which meets Monday, Wednesday and Friday evenings at Pomp's swimming beach under the direction of Head Life Guard Bill Mahoney will complete its course Friday, Aug. 7.

Instruction in this course for adults included personal water safety and life saving, so essential to all bathers.

Members of the class included Jack Cole, B. J. Donaldson, Marge Lawlor, Linda Fisher, Paul Cronin, George Cairns, Peter Fisher, Arline Pariseau, Meredith and Dianna Derck.

During the past week the cool weather prevented many people from swimming but quite a number have visited the beach with their families to picnic.

Despite the drop in daily attendance due to the cooler weather the accumulated attendance reached 20,000 over the past weekend.

Copper sulphate has been added to the water during the past two weeks to insure the bathers of clearer water.

All persons interested in entering the races to be held Sunday, Aug. 23, may sign up with Mrs. Wright, matron at the pond.

The program on this day will include a watermelon scramble, 50 yards free style, 50 yards breast stroke, 50 yards sidearm, swim for distance, balloon race and penny toss. There will be events for boys and girls of different age groups.

Thanks Selectmen For Disaster Aid

A letter of thanks has been received by the selectmen expressing the gratitude of the Worcester civil defense director for the portable light units which the town sent to the stricken area at the time of the recent disaster.

"Since power was out in certain sections of the city this emergency lighting equipment was invaluable in maintaining security measures," wrote Police Lieutenant Fred J. Maloney, director of civil defense, who commended the town upon its prompt action in responding to the emergency.
